

# GRADER

<http://tiny.cc/grader>

## FEATURES & BENEFITS

- Optional laser control package for precise grade control

The grader attachment converts the MultiOne into a high performance grading system, well suited for confined areas not accessible to larger machines. It is possible to level roads, squares, playgrounds and carefully lay gravel and sand.

The hydraulically controlled moldboard is controlled using the cab mounted auxiliary controls. To increase the grader efficiency and precision, the MultiOne's grader can be equipped with an optional laser control system. The grader is equipped with two front wheels mounted on a floating frame that assures the stability even on uneven ground.
